

# SURVIVAL CRAFT

by Kim Seo On

# CHAPTER 1

## The Mystery Game

One rainy night in New York City, there was a fourteen year old boy named Tony. He was alone because his parents went abroad to work. They sacrificed themselves not to be with their son just to give him a better life but Tony didn't even understand that. All he knew was they left him alone so he grabbed the chance not to go to school and spend his time playing on his computer instead. He became a lazy boy and got hooked on playing games. While he was playing a game, there was a mystery game suddenly advertised on his screen saying, *"Do you want to survive?"* which made him feel thrilled so when he clicked the advertisement, it brought him to the unknown site of this mysterious game *"Survival Craft"*. He felt a bit strange about the game but he gave it a try. After a few minutes of playing, he had so much fun. He thought about his best friend, Tina who was very studious and brave. So he called and asked her *"Hey Bestie, would you like to come over and play games with me tonight?"* She wanted to say to his best friend that she had to study and prepare for their upcoming exam but she couldn't say *"No"* to him so she just replied *"Okay Bestie! I'll be there in an hour."* And then they hanged up.

Tony started to prepare some snacks for his best friend and while he was waiting for her he went back playing the game. Suddenly, he heard thunder roll and saw the lightning flashing so he got really scared so he covered himself up with a blanket then a few minutes later, the phone rang. He answered the call and it was his best friend saying *"Bestie, I'm sorry I can't make it tonight. My mom didn't want me to go because of the weather and need to study for..."* He just sighed *"okay, let's just play next time."* Then hanged up the phone and went back to his bed. When he checked the clock, it was already five passed ten. It was late at night but he wanted to call his parents to feel better, but they weren't answering the call, he kept on phoning them and said *"Please pick up the phone mom..."* Then the thunder rolled again so it made him feel so scared and accidentally dropped his phone. So he decided to stop playing the mysterious game and went to his bed and fell asleep. An hour later, Tony suddenly woke up and started to ask himself *"W-w-where am I? Am I d-d-dreaming?"* He stammered. He's slapping his face to wake himself from dreaming but it didn't work. He really couldn't believe his eyes that he's in a different world, a world that he saw in a game he is playing, *"Survival Craft"*.

*"How did I even go here?"* he asked. He got up and saw a book beside him. He read it and there were instructions and guidelines how to survive. He screamed and said *"Why is this happening to me?"* So he immediately followed what's in the book and went to the nearest tree. He took ten log blocks and used them to make a pickaxe, a shovel, and an axe. He used the pickaxe to mine stones and minerals. He used an axe to get the wood and make a house. It took him three days to build his own house. He also got diamonds, emeralds, coals, iron and gold ingots. He used these minerals to improvise his tools that he made. He also stored some fruits that he got from the trees. After a long tiring day, he got some rest and thought about his family and friends. *"I wished they're here with me."* he sighed.

# CHAPTER 2

## The Obsidian

"Cock-a-doodle-dooooooooo..." the rooster crowed and Tony woke up with astonishment when he saw six people were looking at his chest. *"Who are you and what do you want from me?"* he squealed. He got cornered by them so he used his enchanted diamond sword and hit them without hesitation. *"arrghh! Why did you do that?"* the boy groaned. You were glaring at me and tried to take my properties, he said. *"No, we have no intentions to hurt or steal anything from you"*, the boy explained. *"Then why are you here?"* Tony replied. *"I know you won't believe us but we're also trapped in this game like you."* *"We have to help each other."* the boy said. *"Okay"* Tony said. He handed them the guide book and they studied it. *"Come on! Let's do our best to get out of this game"* Tony said bravely. He told them that they have to follow the guide book to survive so they can get out of the game. Before they start to work as a team, they introduced themselves to Tony. *"Hi, I am Yunda and these are my friends, Luna, Lucy, Heidi, Dok-Gae, and Fauna. We have been trapped here for a week now."* *"Nice to meet you, my name is Tony."* After having a small talk, they started to talk about their plans. Tony handed the guide book to Yunda.

*"Here's the guide book, we need to follow everything to get out from this game."* Tony said. *"I need to show you something first, Tony"* Yunda said. They headed to the woods and showed him the big wall of rock and has five patterns engraved on it. *"Whoaah! What are those?"* Tony asked. *"Probably this is the answer to get us out."* *"Maybe we need to find all these things."* Yunda said. *"Ah huh! We have to tell this to our friends right now."* Tony and Yunda immediately went back home and discussed the plans that they have to do. After a small discussion, they divided themselves into two groups. The first group was mining the minerals and making tools while the second group was getting some woods and food. They read the guide book and follow the next step. The next step was to make an Obsidian. Obsidian is a type of rock made by lava and water. *"I know where we can find lava"* Yunda told Tony. So they got some water from the lake and they headed to the cave and mountains to get some lava. When they got back, they mixed the water and lava to make Obsidian. *"Why are we making o-o-bedience?"* Dok-Gae asked. *"It's Obsidian"* Tony said. *"This is probably the way to get us out"* Yunda said.

So everybody was very busy to work on the Obsidian. When they were done working on the Obsidian, they lighted it and suddenly they saw the purple beams swirling. *"What is that thing?"* Dok-Gae asked. *"I don't actually know but what I know is we need to go through this thing."* Tony said. So they got through the portal together. Just for few seconds, they got into the place. They saw a name Xether on the banner that hanged on the tree. *"Guys, I think this Xether place is so creepy"* Luna said. When they started to walk around the place, they heard a screeching sound then they saw different creatures in front of them. *"G-g-g-ghooooost!"* Dok-Gae exclaimed. *"What are we going to do now, Tony?"* Yunda asked. *"Let's fight them."* Tony said bravely, so they fought with the ghosts, blazes, and zombies. After killing the creatures, they turned into dust. Then they saw something luminous and bright. They walked forward and came close to that thing. They saw a luminous star *"Woaaah! A golden star!"* Dok-Gae said. *"I think that is one of the patterns that we found."* Yunda said. *"You're right my friend, and we need five more patterns to complete them."* Tony explained. So they kept it in the bag and looked for a place to rest.

While walking, they saw a big area with some crops that had grown on the other side of the village. He called his friends *"Hey guys! Can you see what I'm seeing right now?"* Tony yelled. *"Let's get some!"* Fauna said. They got some food to eat and had some sleep under the tree. The next day, they went to every house and asked the villagers to help them. There was a villager offered his house for them to stay. *"Thank you so much for letting us to stay in your house"* Tony said. *"We will help you protect your village from danger"* he added. *"Thank you! We'll help each other?"* The villager replied. Then Tony and his friends started to guard the village and help other villagers to harvest the crops. They made and kept lots of pastries for their supplies of food. The villagers were very friendly and felt secured because of the protection that Tony and his friends were giving. After having dinner, all the villagers were about to sleep but, Tony and his friends were still guarding the village. A few moments later, they heard a howling sound came from the dark side of the village; they bravely looked for it and saw the wolves came toward them but didn't even bite or attack them. *"Why they aren't attacking us?"* the boy said. *"They probably hungry"* Tony answered.

So they gave the wolves some food then they munched the food right away. *"Hmmm, I've got an idea!"* Tony said. *"We could actually train these wolves and help us fight against the creatures."* *"By this way, we can easily finish and get out of this game."* He added. *"Oh yeah! That's a great idea, Tony!"* Dok-Gae said. After the training and preparations, the Pillagers attacked the village. Pillagers looked like humans with blue skin. Tony and his friends fought with their enchanted bows and swords. After the fight, they celebrated with a feast of food and beverages. They put the spare tools in a big box and went mining for stones and ores. They went to sleep and waited for the next day. Tony woke up early but he noticed that Heidi, Yunda, and Luna were not in their bed. Suddenly, he heard a growling sound coming from his stomach. He checked the food box and found five cans of cooked salmon. He was as hungry as a bear but he only opened two cans of cooked salmon. After breakfast, he checked around the village and saw some grown carrots, potatoes and wheat. He made cookies and bread for breakfast. Next, he searched the axe inside the box and went to the nearby forest to get some woods. Then he went hunting for skeletons and spiders.

He got a lot of bones, arrows, bows, and strings. He used the wood and string to make a fishing rod. Tony went to the nearest shoreline and started fishing. While he was fishing, he thought, *'Why aren't there any more rivers?'*. He got an idea. He got his shovel and dug the ground to make a long path just in front of the waterway. Then he explained to his friend that they could get water and fish there every night. The next day, Tony woke up and ate the salmon he cooked yesterday. Next, he got a stone pickaxe and made a secret room by traveling the waterway. It was their secret storage room. They put a lot of boxes and put all their precious items. When they got home, he went fishing and he went to sleep.

# CHAPTER 3

## The Stone Wall

Tony couldn't sleep last night after he had a nightmare. He dreamt about his parents who were worried sick because of him. *"I really miss my mom and my dad, I really need to finish this freaking game to be with them again"* he sobbed. So he strolled himself outside to get some fresh air and thought about some new plans. While walking around the village, he saw an enormous natural cave; he got curious so he went inside with his torch. Deep down the cave, he jumped out of his skin when he saw a lot of diamonds. *"OH! MY! GOD!"* he said. *"I think this is another pattern that we need."* Tony rushed to the village and saw the diamonds to them. *"Great work, Tony! We only need three more patterns"* Yunda said. They went back to the big cave and mined. After mining, he found two hundred bees and made a cage for them. He fed all of them. He said, *"Where are Yunda and Heidi? I haven't seen them since this morning."* They got worried and went on patrol. While they were searching, Yunda and Heidi ran toward them, screaming their heads off! Luna said, "What's wrong?" Luna asked. *"Ah, ah, ah, monsters alert!!!"* Yunda squealed. Suddenly, in the woods, they heard a loud growling sound. Yunda and Heidi screamed, *"Aaaaaaaaaaaaaahhhhhhhh!"* and then they ran.

Suddenly, he saw thousands of zombies, skeletons, spiders, creepers, and all kinds of monsters. They all ran away. In the village, Tony spawned 300 iron golems who protected the villagers. They made and buried some traps underground. Also, they put 20 trained wolves and 30 cats in front of the village. When they were done preparing their defense, Tony stood up next to the big yellow bell and then, he banged it to call everybody's attention. He reminded the villagers to stay inside their houses. They put the red stone lamp which meant, *'DANGER! DON'T COME OUT FROM YOUR HOUSES!'* They put some fences around the villagers' houses and enchanted as much armor and diamond swords as possible. Then they waited for the monsters to come. One peaceful night at the village, people were sleeping while Tony and his friends were a bit sleepy but they were trying to be wide awake to secure the village. Suddenly, they were hearing the tree branches creaking. *"What is that creepy sound?"* Fauna asked. *"I think there's something approaching to our village, we must get ready guys!"* Tony said. Then suddenly they heard a big explosion from the place where they buried the traps and the red stone lamp alarmed.

*"Oh my goodness! They're all coming!"* Yunda said. *"Villagers! Stay inside and don't panic!"* Tony exclaimed. All at once, they activated the trap and the zombies fell in a giant hole. Their plan to kill the creatures went well. Suddenly, they saw something luminous again. It was coming from that hole. It was an Ore. *"It must be the third pattern!"* Tony exclaimed. *"We're getting closer to the final game"* Yunda said. Everybody cheered for their victory. *"Well, I guess these creatures will never ever go back to this village again."* Luna said, *"Thank you so much for saving us! You guys have a golden heart"* one of the villagers said. *"It's really an honor for us to protect this village, our family"* Yunda said. Everybody was so happy to live peacefully now in their village. While Tony was having a rest, he was thinking about the three items or patterns they got, the golden star, the diamond, and the golden ore. He murmured to his friends after lunch. *"I think I found a way to get back to the real world! Come on guys!"*

# CHAPTER 4

A Trip To The Moon

Tony and his friends rushed to the stone wall. They took out all the items they got from the bag. Yunda looked at the stone wall and saw the patterns. *"The patterns were engraved like shape of a star, a diamond and an ore."* Yunda said. So Tony put the first pattern which was the golden star, the diamond and the ore in the holes. It shone brightly when he placed the items one by one. *"Woaaah, they fit perfectly!"* Dok-gae said. *"We need to find two more items and I assure you guys that we'll be with our families again"* Tony said. *"Let's just trust one another!"* Fauna added. Then suddenly they saw purple light gleaming in the woods. *"What's that?"* Dok-Gae wondered. *"It's the Obsidian".* Yunda said. *"Come on guys, let's go there"* Tony said. They headed to the woods and saw the Obsidian gleaming. *"Why is it gleaming?"* Dok-gae asked. *"Perhaps we have to get through the portal again."* Tony said. *"Let's go guys"* Fauna said. So they got through the portal together. When they opened their eyes, it was dark and they saw large bowl-shaped cavity in the ground. *"Where are we this time?"* Dok-Gae asked. *"Are we in outer space?"* Fauna asked. *"I think we are landing on the moon"* Tony said. *"I can see craters, so we are on the moon"* Tony added. *"Why this Obsidian brought us here?"* Luna asked. *"Probably the fourth item will be found*

here” Yunda said. “Now let’s find the next item” Tony said. While they were around, Tony saw someone lied on the ground. He came closer and found out it was his best friend Tina. He woke her up and called his friends. *“Wake up, bestie, wake up!”* Tony exclaimed. *“W-w-what happened? Where am I”* Tina stammered. *“You’re in the game! Why are you here, how did you get here?”* Tony asked. *“I was at your house because you didn’t call me for couple of weeks already. Then I found the key and used it to get into your house. When I looked around, no one was there. Then I went to your room. I saw that your computer was on. I looked at the game you were playing and then I tried it.”* *“and t-t-then when I was getting off the chair suddenly there was a beam of light shot from your computer and surrounded me. Then when I woke up, I was here and I don’t even understand”* Tina explained. *“But don’t worry Bestie, we’ll be coming home soon enough!”* Tony promised to Tina. *“We just need to find something in here, the fourth item”* Tony added. So everybody started to find the fourth item. They dug the ground like they didn’t even know where to find the fourth item. But they noticed that there was an area that they haven’t dug yet. It looked different.

The surface of the ground was uneven. So they dug and dug until they saw something luminous again. "It's an ingot" Yunda said. "How did you know it is an ingot?" Tony asked. *"I just saw one from the villagers before but this ingot looks different from that"* Yunda explained. *"Great! So this Blue ingot is the fourth item we need."* Then suddenly the Obsidian appeared. *"It's time go back! Come on guys"* Dok-Gae said. After going through the portal, they went back to the village and headed to the stone wall. They placed the blue ingot into the hole. "It fits again!" Tony said. "We only need one item left" Yunda said. "Yeah! But the last item here would be formed as heart shaped" Fauna said staring at the stone wall. "You're right, Fauna! That's what we're going to find" Luna said "But where can we find the last item?" Tina wondered. "I don't know but we'll find out" Tony said.

# CHAPTER 5

## The Key

One night, Tony was so scared. He was running down the mountain with his friends. Then the ashes were all over the sky and the lava was flowing behind them. Everybody panicked and stampeded. Yunda grabbed Tony's arm to stop him. Rocks were falling from the cliff. Then the oozing lava was flowing onto them... Then suddenly Tony woke up screaming with all his friends! "AAGGHH!" They all screamed. They were all confused. They were running down the mountain. But, now they were all in their beds. "Did you...." "You too?" "What! OMG " "I am getting crazy!!!" they felt relieved after realizing that it was just a dream. But they were still worried about what they had dreamt about. "We need to stay calm and be ready for anything," Tony said. They called it as a bad sign. Later that day, they got worried again when they heard a big explosion. Then suddenly, the house started to fall apart! Luckily, Tony jumped off to his friend's side of the house before it was too late. He wondered why the ground suddenly cracked. When he went out of their house, he saw the villagers were panicking. Then there was a villager accidentally fell in the big crack.

Luckily, another villager came to rescue him. Then they saw that there was bubbling lava flowing. *"This can't be happening!"* Tony exclaimed. He heard a big creaking sound and saw that the crack came from the nearest mountain. At that moment, they felt so scared and hopeless because the lava came pouring down the mountain. But Tony kept encouraging them to be brave and finished the game together. So they planned how to survive from that flowing lava. They started to construct a barrier and a bridge to the forest so the lava would stop flowing to their village. *"The construction went well guys!"* Tina said. *"We just have to believe that we'll get through this"* Yunda said. Then they went back to their house and rested While Tony stayed outside and thought about something. *"We need to get out of this place"* *"We need to find the last pattern"* he added. Then suddenly he saw something gleaming from the place where the Obsidian was located. Tony knew that the portal was needed so he rushed into the woods without telling his friends and went through the portal alone. When he got into a new place, he walked around and started to feel the butterflies in his stomach. *"Where should I find the last item we need?"*

*"What if I don't survive here?" "How can I get back home?"* he asked himself with fear. Then suddenly he saw a sparkling tree in the distance. He came closer and felt hungry so he picked a fruit from a tree. *"This is so delicious!" "I've never eaten this kind of fruit in my whole life,"* Tony said. So he picked more fruits and noticed that one of the fruits he picked was totally different from the others. It looked like a sparkling blue apple-shaped with white stars around it. *"Woah! This is so beautiful!"* he exclaimed. Tony didn't hesitate to try it so he munched the fruit right away. While he was munching it, he started to feel something hard in his mouth so he spits it out. *"Ugghhh! What is that thing!"* He couldn't believe his eyes. He saw something glistening. *"T-t-the last pattern!!!" "It's the k-k-key!"* Tony cried. So stood up and ran to the portal immediately. *"I'm coming home Mom and Dad"* he muttered. Then he jumped off through the portal and came back to the village. He headed to their house. When he was close to their house, he saw his friends having dinner and he heard them complaining about something *"I'm so sick of this game" "How can we even find the last item?" "I don't want to die here" "I want to go home!"*

They cried. Then Tony opened the door forcefully and told his friends his great news. *"I found the last item guys!!!"* he announced. *"H-h-how did you find it? And where on earth have you been? We've been looking for you everywhere!"* Yunda wondered. *"It's not important where I found it, Yunda. The important is I found the last item and we can go home now!"* he exclaimed happily. Then everybody cheered and gave him a triple high five. *"Now! Let's go to the stone wall!"* Tina said. When they got there, everybody felt nervous and excited. *"Are you guys ready?"* Tony asked. *"Yes! We are but be careful!"* Tina said. Then Tony took the sparkling key out of his bag. His hands were trembling and slowly placed the item to the stone wall. *"It does fit!"* Tony said. *"But why are we still here?"* he wondered. Then suddenly the flashes of light burst out momentarily, then vanished just as inexplicably fast. Everybody was dazzled by the light that came out from the stone wall. When Tony opened his eyes, he didn't see his friends then he noticed that he was back in his bedroom with Tina that laid next to him. *"Bestie! Wake up! Wake up!"* Tony exclaimed *"W-w-what happened?"* she asked scratching her eyes.

*"We are finally home!"* Tony exclaimed happily. *"Oh yeah! We did it, Bestie!"* she replied. Then suddenly they thought about their friends they met in the game. *"I hope they're fine and happy now that they are home with their family"* Tony muttered. *"Of course! They are! I just wish we could see them again!"* Tina sighed. *"It was a thrilling and challenging game for us, wasn't it?"* Tony said. *"Well yeah! I agree with that but I will never go back there again!"* Tina said. Then Tony just remembered his parents, *"Mom? Dad?"* he yelled. He ran to their bedroom and looked for them all over the house. *"Where are they? Aren't they home yet?"* Tony wondered. He looked at the calendar noticed that his parents will be coming home next week, but when he checked his phone and got several miscalls and text messages from his parents. He phoned them right away and talked to his mom *"Oh my goodness son! What happened to you? I've been calling you several times but you were not answering!"* *"We are so worried sick about you!"* *"We are about to go to the airport now and come home"* His mom exclaimed with worries. *"Mom, calm down! I'm fine, don't worry about me. I have a lot of stories to tell"* Tony explained. *"Thank God! But we will be home*

*by tomorrow, I miss you, son!" "I miss you, mom! See you at the airport tomorrow!"* Tony said with excitement. The next day, Tony met Tina at school. *"Hey! Welcome back to school, Nerd!"* Tony told to Tina. *"No! I'm welcoming you for coming back to school!"* Tina teased Tony. They laughed at each other and headed to their classroom. Then suddenly their teacher entered their classroom, *"Class, I would like to introduce your new classmates. Please stand up and let's welcome them!"* The teacher announced. *"Here they are! I would like you to meet Luna, Heidi, Dok-Gae, Fauna, and Yunda! Let's welcome them"* the teacher said. Everybody greeted and gave them a round of applause. Tony and Tina couldn't believe their eyes when they saw their friends so they quickly went to the front to see their friends closely. *"OMG! I can't believe you guys are here!"* Tony exclaimed. *"I'm so happy to see you guys!"* Tina said hugging them. *"We are very happy to see you again and now we'll be seeing each other again every single day!"* Yunda said. *"I'm looking forward to that!"* Tony said. *"Okay, class! You may take your seats and we'll start in a bit."* The teacher said. Then every day after class they spent their time together.
