CHAPTER 1

OUR PLAN ON WEEKEND

I am Nefreax and here is my friend Amodk. I am really fast, I have entered a lot of races but I just won once. I am really fast. I live in a 64-story tree house with my mom and dad. I am circle-faced and I have a black hair. My eyes are big with a really dark pupil.

My friend, Amodk really likes eating. His favorite food is chocolate-chip pizza. He entered a lot of eating contest and won them all. He has a black hair. He lives in a hotdog-shaped underground house. He is ten years-old.

We were drinking some water when our order arrived at our house. It was water, apple, ten cupcakes, and three boxes of chocolate-chip pizza. Since it is Friday, we decided to go camping on weekend.

CHAPTER 2

GETTING READY

We packed our suitcases. We put our food, water, sleeping bag, apple-shaped pillow, flashlight, mosquito killer and a tent. Since we are bringing too many things, we had to bring 13 suitcases.

At evening, we ate dinner. We decided to go to a forest called Clutterfunk and spend the weekend there. We wore our sweater because it is winter. We went to sleep hoping that the weather will be good tomorrow.

CHAPTER 3

GOING TO THE FOREST

The next day we took out our suitcases from the car. But the suitcases didn't fit. So we rented a wave. It is a triangular shaped airplane which flies in zigzag. It arrived and was yellow in color with a bit of light blue. We started putting in our suitcases. Inside the wave, there were sofa, six windows, and a controller. The controller is just a button with white color. The button is in the middle of the wave. We read the instruction on how to fly it and discovered that if we hold the button, the wave will go up and if we release the button the wave will go down. Since it just flies horizontally, that is the only way to control it. We rode it to get into the forest. It was hard controlling it at first but we got better after sometime. We landed in the forest.

CHAPTER 4

AN INSANE WAVE

We assembled our tent. Our tent was yellow and it was big, really big. We decided to have a picnic. We took out our two boxes of chocolate-chip pizza, apple, and six cupcakes. They were all delicious or maybe we were just hungry and tired.

We were full and just taking a rest when we heard something. "sshhhhhhh" I said to Amodk. It sounded like a strong wind. The sound got louder and louder. Then we noticed something falling from the sky. It was a comet. It hit our wave but our wave survived the crash. Suddenly our wave started to move slowly then it got insane like a cat with string on its tail. We chased the wave but the wave was so fast we couldn't catch it. We just stared the wave fly until it disappeared. We were sad and scared but got scared more when we looked around and found out that we were in the middle of the forest and we were lost.

CHAPTER 5

A BEAR

We were in panic, we ran and ran but we couldn't find our tent. We heard something roaring. The sound became closer and closer. When we thought that our situation couldn't get any worse, there was a bear looking at us hungrily. The bear was covered with brown fur. Big and sharp claws that can cut through trees were pointing at us. Its long fangs were slightly showing off. He was the infamous Polargeist, the bear of the clutterfunk. We ran and the bear chased us. The bear was running 2000 km per second. We were running at the same speed. But the bear looked like it could get faster and catch us. So we climbed a tree, the tallest tree that we can find. It was so tall it touched Pluto. The bear tried to climb the tree but he was so big that he couldn't. After some time we decided to go down.

CHAPTER 6

A MYSTERIOUS CAVE

When we were climbing down, we spotted a cave. We decided to go to the cave. We looked for the cave and when we found it, we went inside the cave. The cave was really dark and scary. It looked like very deep too. We saw a lot of stalactites and stalagmites. We roamed around. The cave was creepy.

We heard a voice. We followed the voice as it got louder and louder. We found the owner of the voice. It was a ghost. The ghost was white, had black eyes with no pupil. The ghost was talking about the treasure he had.

We wanted to get the treasure. We got a lot of stalagmites and threw them at the ghost. The stalagmites just passed through the ghost and the ghost just looked at us and shouted "GET OUT OF MY CAVE". We got scared and ran as fast as we could. But we still wanted the treasure.

CHAPTER 7

A GHOST

We were thinking of a plan to get the treasure of the ghost. "I have an idea, how about we put the ghost into a cage" I said, but Amodk just looked at me and said "Ghost can pass through walls. How about we make a cross to scare off the ghost?" I thought it was a great idea. So we looked for straight branches and some vines to tie them up. We tied them up and made sure that it looked like a cross symbol.

We came back to the cave. The cave was still creepy and the ghost was just walking around and guarding its treasure. We showed the cross to the ghost and chased it till it disappeared. We got the treasure chest. Since it didn't have a lock, we easily opened it and saw a golden telephone inside.

CHAPTER 8

A GOLDEN TELEPHONE

The telephone that was as big as a laptop cut into two. It was shining its bright yellow color. We saw a very thin instruction on how to use it. The instruction told the parts of the telephone. There was a touch screen and a camera for video message, little buttons for phone numbers and a fan. At the end of the instruction manual, it said "The phone doesn't need to be charged or be paid instead, you can get a thousand dollars on every call you make". The best thing was there was a ghost button, that if you call someone and click it the receiver of the call will get haunted.

We tried to call our parents. We dial 4225-361755-681745921, which is our parent's phone number. But when we did, it did not work.

CHAPTER 9

PAGES

We were really confused and stuck. We tried it again and again but nothing worked. We thought about going back to the cave, because maybe the cave had something to help us. We searched the whole cave, every corner and every stalactites and stalagmites. We even checked the telephone's manual. Maybe we were missing something. We checked page by page, every word and sentences. We found out that we were missing some pages. Where could it be? We checked the ghost's treasure chest and inside it saw the missing pages.

Reading these pages was the only thing left to do. We read it and found out that the numbers should be dialed backwards. We called are parents, dialed their number backwards, and it worked like magic. We told them everything and they just told us to wait.

CHAPTER 10

We waited till they arrived. The weather was hot and humid so we turned on the telephone's fan. We also killed the mosquitoes around us using the ghost button of the telephone. Then this familiar shape approaching us caught our attention. As it came nearer and bigger we realized that it was a triangle vehicle. It landed on the ground near us and the wave opened its door. Our parents just waved and we waved back with the telephone in my hand. We were both happy.

We went home and a party of celebration started. There were cakes, pizzas, and tomatoes. They were delicious. Our 17 friends that we've invited beforehand arrived. They gave us seventeen thousand dollars as a present and even bought the decoration and the foods for the party. The day ends with joy and celebration.
